

# CandyWorx

Experts in Confectionery, Chocolate, & Cannabis

## Filling the Gap

CandyWorx and Spec Engineering turn your ideas into products by offering complete process solutions and equipment.

Pairing the expertise of process design and engineering along with quality, custom confectionery equipment, Spec Engineering and CandyWorx are well-equipped to optimize and complete a full process scope. Spec's ability to handle the downstream and upstream components for a system enhances the CandyWorx equipment, providing a complete, custom solution. With a combined manufacturing facility in Naperville, IL, our equipment and systems are designed and assembled with safety and longevity in mind.
